THE TRAPS COURSE – PROCEDURAL SKILLS COURSE
QUT MERF CENTRE, THE PRINCE CHARLES HOSPITAL, CHERMSIDE.
8TH AND 9TH SEPTEMBER 2021

TIMETABLE:

0800 - 0830	***REGISTRATION AND WELCOME. PREPARE AND BE READY FOR COURSE TO START AT 0830***	
0830 - 1200	***HUMAN CADAVER SESSION*** Candidates will divide into 2 allocated groups of 6, and be led by senior surgeons in the following skills: • Surgical Exposure and preparation • Surface anatomy • Surgical Airway • Thoracostomy • L and R lateral Thoracotomy • Clam shell Thoracotomy • Pericardiostomy • Exposure and Repair of R Ventricular Injury • Occlusion of R Ventricular Injury • Occlusion of distal aorta • Lateral Canthotomy • Vascular access – including IO Surgical skills and technique will be emphasised at all times, and candidates will have the opportunity to both watch and participate in this process. Candidates will have the opportunity to ask questions and interact with all facilitators	From our experienced faculty of surgeons and critical care physicians
1200 –1230	***LUNCH***	
1230 - 1530	***LIVE ANIMAL SESSION 1:*** Candidates will be divided into groups of 3 and be positioned around 1 of our 4 Anaesthetised Pigs. Emphasis on this part of the practical, is for hands on, high fidelity experience, with support from your facilitators. To maximise the usage of our Anaesthetised Pig, it is VITAL that we step through the outlined procedures in the following order: • Complex Vascular Access Including use of IO • FAST Scan of the Abdomen • R and L thoracostomy (Both finger and ICC) • R and L thoracotomy including “clamshell” thoracotomy	All facilitators

	• Management of a penetrating injury to the R ventricle – pericardiostomy, resolution of tamponade, occlusion of haemorrhage, suturing/stapling of wound. Distal Aortic Occlusion	
1530 - 1600	***AFTERNOON TEA***	
1600 - 1700	***<u>ANIMAL SESSION 2:</u>*** While at afternoon tea, your pig will be humanely euthanised, which will allow for the following procedures/skills to be practised: • Review of the anatomical lesions and surgical procedures previously taught • Surgical Airway • Lateral Canthotomy	All facilitators
