## ABSTRACT INSTRUCTIONS

Authors will require a profile on Currinda in order to submit an abstract for consideration. This profile will then be used for registration for the conference.

- When logging in to Currinda, you will be asked to create a profile (unless you already have a Currinda profile) and then, prompted to submit an abstract for the conference. You can submit multiple abstracts, one after the other, through your profile.
- Whilst you can come back to your submission(s) at any time prior to the submission deadline, please ensure you proceed through the entire process to complete your submission. If you fail to do this, your abstract will not be reviewed.
- You may select an oral, poster or both presentation options for your abstract. If your submission is accepted, the Scientific Committee will confirm which presentation option they consider best suited to your submitted paper.
- You can log back into the system and edit your abstract submission at any time until 5pm (AEST) on **Friday, 11 June 2021**. Simply log into your Currinda profile, select the abstract to amend and navigate through the top tabs to the section(s) you wish to edit.
- An automatic acknowledgement email will be sent once your abstract submission is complete.

- Include the first name, surname and affiliations of all authors separately.
